Superintendent's Message

As I thought about this message, I was reminded that someone long ago said: "Blessed are they who have nothing to say and who cannot be persuaded to say it." The substance of this statement is that when something is expressed for further consideration, it should be with identifiable accuracy.

In keeping with this thought, I am compelled to say that I am proud to be associated with the Marion Senior High School student body. I continue to be pleased with the productivity of the Annual Staff. The quality of the publication appears to be improving each year. I conclude that the truth of these statements is self-evident.

I express the best wishes for continued success for the high school annual staff.

James H. Carter
Superintendent

Principal's Message

I have been very fortunate (blessed if you prefer) in the past two years:

I have been principal of a very fine high school.

I have had a student body that I greatly appreciate and admire.

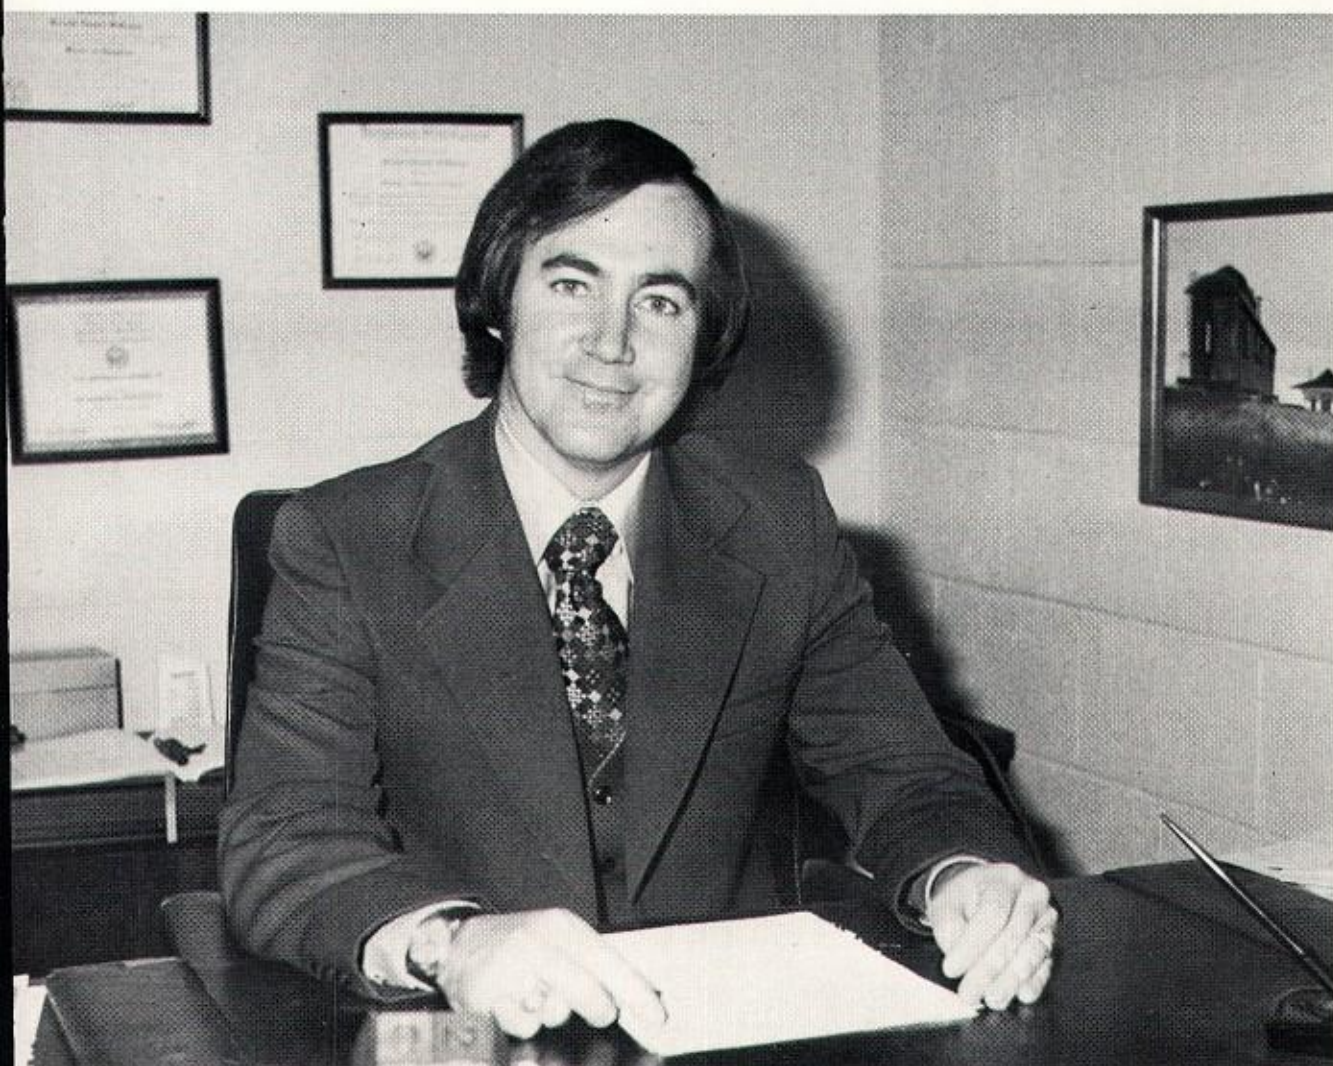

I have had an excellent teaching staff who care about their responsibility to you, the students.

I have had an administrative staff that could not be improved on.

But really, these are not mine — they are yours — so you have been fortunate also.

Thank you for all you have done and been to me for these past two years.

Goodbye, M.H.S.!

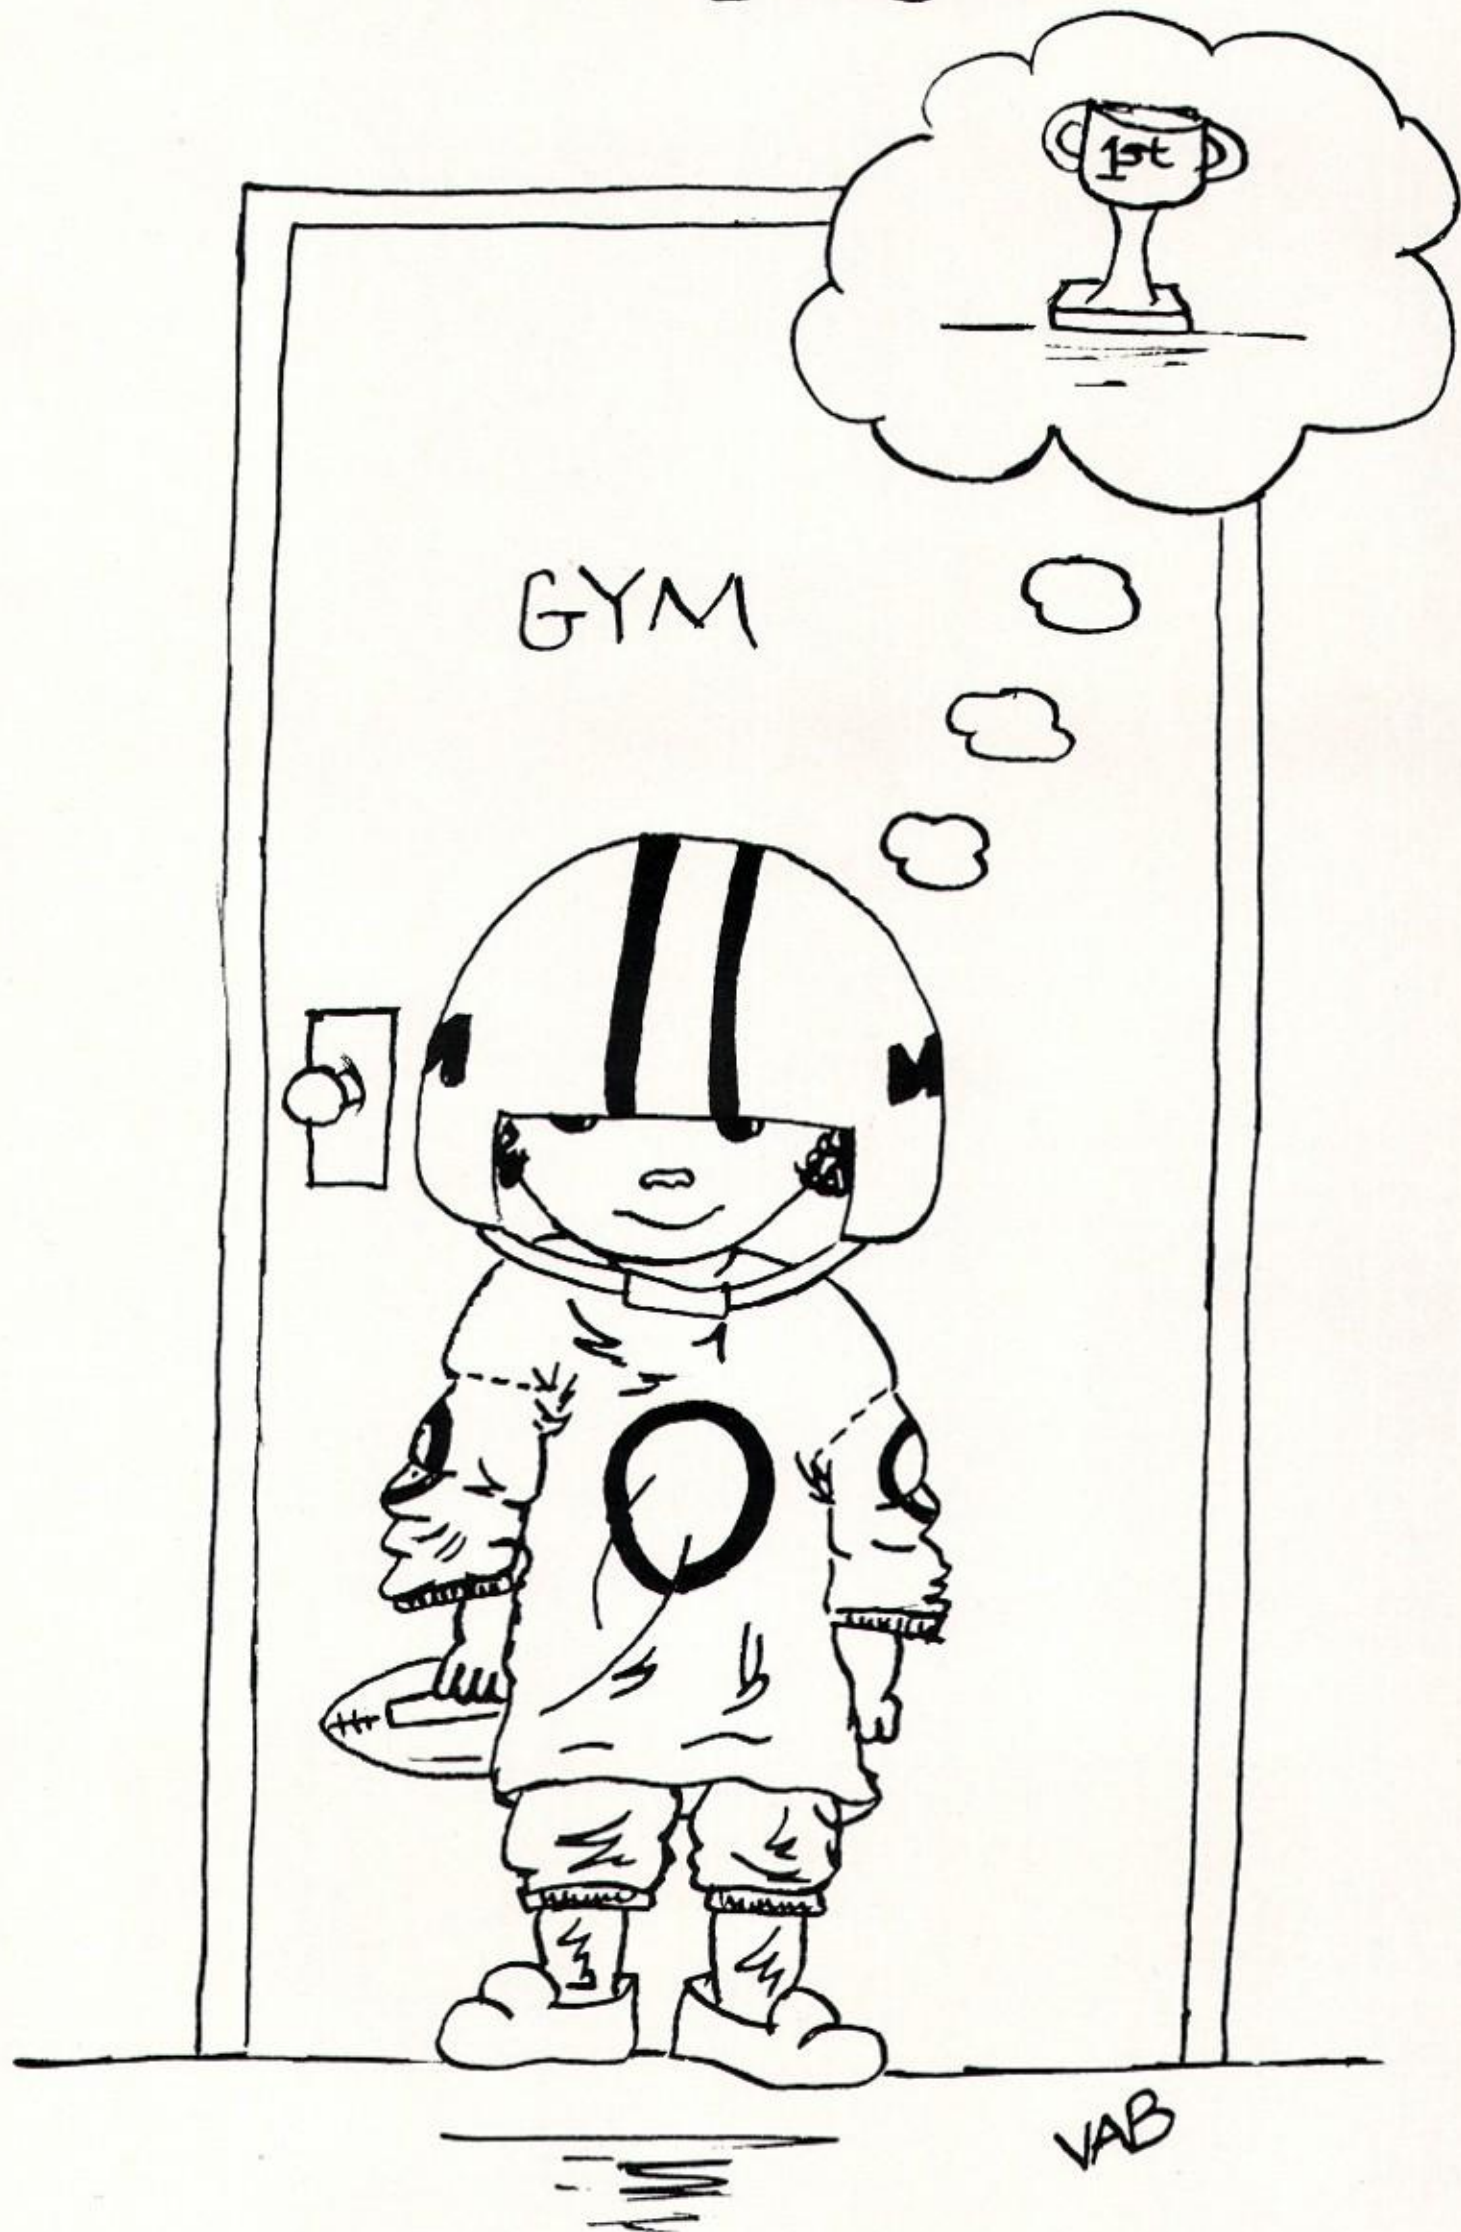

Diplomas, Caps and gowns, and senior class rings —
These all seem like such traditional things;
Actually this is the school's way of saying goodbye —
They send their good wishes, along with luck in all we try; They've done their job and they hope it was
done well —
After we're on our own, only time will tell;
It seems strange the importance school has played in our lives —
Hopefully we can all go out and succeed in all that we've been taught to strive;
A new life, new people, a beginning of our own —
School — thanks for the helping hand and the care that you've shown.

You've planned for us twelve years in advance —
And now you're sending us out to give us our chance;
Our years in school will benefit us on decisions we'll have to make —
And because of your help, it will be easier to determine the roads our lives will take;
We, as seniors, now see the importance of a high school education —
It played a big part in our lives, and somehow served as a training station;
It taught us to work together to be a benefit to our society —
We appreciate our faculty and the constant struggle to work with us, a reality.
We, as seniors, would once again just like to say thanks —
We know our high school education will help us to go to the highest ranks;
We hope that we had something to do with making Marion High great —
And that you will always remember the Class of '78!

BIGGER INSURANCE AGENCY INC.

"All Lines of Insurance"
E. W. Bigger and Frank A. Fogleman

but you know you never will. You tell your
teachers you'll be back to see them, but
you know you won't. With time it won't matter,
but right now it hurts a little.
